Coleman High School Examination Results

1932-33 (including supplementals)
General Summary:
Passed 8 units—15 pupils; passed 7 units—40 pupils; Passed 100% of written work—5 pupils; total 60.
Corresponding totals previous years:
1928-29 13
1929-30 22
1930-31 45
1931-32 48
1932-33 60
Unit Averages:
Grade IX 91.76
Grade X 93
Grade XI (6 students) 82
Grade XII 83.7
General Averages:
Departmental average 87.6
(Provincial average) 71.1
School average (grade IX) 91.76
Total school average 88.92
Note—Students attempting 7 or more units made an average of 93.4%.
Students attempting 5 or less units made an average of 88%.
Students passing more than 75% of work attempted:
Grade IX 25 out of 30 83%

Grade X 18 out of 19 94.5%
Grade XI 3 out of 6 50%
Grade XII 31 out of 42 73.8%
Total 77 out of 97 79.4%
Student Records
Grade IX seven out of seven:
Edna Morris 79.1, Mary Kish 76.8, Marie Ondras 76.6, Gwen Dunlop 76.3, Joy Ferguson 74.3, Wm. Antrobus 70.9, Helen Hancock 70.4, Dorthea Hall 68.9, Emily Nicholas 68.9, Mary Craig 67.7, Dora Carmelo 67.6, Nettie Gardner 66, Jean MacLeod 66.6, Lillie Thibergien 64.4, Margaret Kovra 63.3, Elio D'Appollonia 62, Charles Maurer 60.7, Winona Taylor 60.7.
Grade X eight out of eight:
Umic Johnson 77, Annie Korch 71.9, Anna D'Andrea 71.7, Feracio De Cecco 71.7, Thelma Vincent 65.1, Audrey Halliwell 64.4, Mary Atkinson 59.9, Clara 53.6.
Grade X seven out of seven:
Olga Belevich 66.8, Joanna Flynn 63.8.
Grade XI seven out of eight:
Vincent Janostak 55.1.
Grade XII eight out of eight:
Margaret McDonald, 78.6, Wilfred Hoyle 76.3, Norma Plante 71.1, J. Ondrus 67.5, Josie D'Andrea 62.8, Margaret Robert 62.1, John James 65.

TRUCK VS. RAIL

Two instances are recorded this week of local firms who would not accept shipments of goods sent in by auto truck. These firms are based on the principle that as Coleman receives more coal business from the C.P.R. than any town in the west, they should give their freight business to the railroad. If trucks were used for transportation of freight to the exclusion of the railroads, every business man in Coleman would either have to look for a new location in a very short time or stay and die within the confines of another "ghost" town. Think it over when you are giving your orders, and remember that every 100 lbs. of freight brought in by a trucking company lessens the need for coal for railway locomotives and freight train crews.

CATHOLIC LADIES' AID HOLDING MONSTER DRAWING

Nine very useful prizes donated by business men and friends of the Catholic Ladies' Aid are to be drawn for on Oct. 23 and tickets are now on sale. The drawing is for a book of eight tickets. Mrs. Naylor and Mrs. John Brennan are the committee in charge sum of their work. As the prizes are all of a nature that will appeal, their efforts should meet with success.

ONE SET OF RAILS TO BE ABANDONED, FROM KAMLOOPS TO COAST

Vancouver — "The abandonment of one of the parallel lines between Kamloops and Vancouver has been considered but no conclusion has been reached," stated E. W. Beatty, president of the Canadian Pacific Railway, in an interview here following his arrival from the east. He was dealing with co-operation between Canadian Pacific and Canadian National railways.

POLITICAL ADVERTISING

To put at ease all political parties engaged in the forthcoming provincial election, the Courier will accept advertising from all and sundry at the regular advertising rates. Space in this paper is for sale. That how we make our living. C.C.F., Liberals and United Front, or any other party which may enter the field, can have their advertising they can afford to pay for. — Cranbrook Courier.

A BIG FISH CAUGHT

A Jack Smith landed a speckled trout weighing 2 lb. 6 oz. near Cowley bridge on Sunday. It is the heaviest caught in the open competition if the Rod and Gun Club during the 1933 season.

GIRL GUIDE NOTES

The regular meeting was held in St. Alban's parish hall on Oct. 2. Miss Vuill is in charge of the company during Mrs. Borden's absence. Mrs. Edgar Reid is taking an active part in Guide work and Mrs. C. J. Devine is helping the girls in the health and First Aid classes.

PENNY WISE AND POUND FOOLISH

Is as true today as yesterday. The merchant who "cuts corners" and buys and sells on price alone may save a few dollars but loses good customers. You get pretty much what you pay for.

MORRISON—BADHAM

A popular young Midlandvale couple were united in marriage last Saturday morning at the Knox United Church, when Margaret Jane, daughter of Mr. and Mrs. T. Badham, became the bride of Sydney James Morrison, eldest son of Mr. and Mrs. Malcolm Morrison. The ceremony, performed at eleven o'clock in the forenoon, was officiated at by Rev. H. D. Leitch.

Besides the immediate relatives of the bride and groom, there were present: Dia Randall, Mrs. John Richards and J. Richards, of Coleman; Mr. and Mrs. Rennie Colburn, who acted as witnesses.
A wedding luncheon followed the ceremony, after which the young couple left on a honeymoon trip to Calgary and Banff. Returning, they will reside at Midlandvale. — Drumheller, Mail.

MUNICIPALITY OF THE TOWN OF COLEMAN

Notice to Relatives of Persons on the Assessment Roll and to Tenants

Notice is hereby given that during the months of September and October applications may be made under the provisions of section 204 of The Town Act for inclusion in the voters' list of the Town of Coleman.

The wife, husband, father and mother and every son and daughter of any person whose name appears upon the assessment roll are entitled to be placed upon the said list.

If he or she is resident within the said person within the town or assists him in a business in respect of which he is taxable; and if he or she is of the full age of twenty-one years; and if his or her name does not already appear on the roll; and if he or she duly makes application in accordance with this notice.

All tenants who have rented an assessed parcel for a period of twelve months immediately preceding the last day of August of this year, and who duly makes application during the months of September and October are entitled to be placed upon the said list.

JAMES FORD, Secretary-treasurer

ST. PAUL'S LADIES' AID TO PRESENT TWO PLAYS

The Ladies' Aid of St. Paul's United Church, assisted by several young people, will present two humorous plays in the club room on Wednesday, Oct. 11, at 8 p.m. Admission 25c. Come and enjoy an evening of fun.

CATHOLIC LADIES' AID HOLDING BAZAAR

A grand bazaar, sale of work and home cooking will be held in the Catholic hall on October 23rd, and tea will be served from 2 to 6 p.m. The grand drawing for nine prizes will also be held on this date.

ST. ALBAN'S CHURCH, COLEMAN

Next Sunday is the 17th after Trinity and Thanksgiving Sunday. The services will be held at 12:30 p.m. Sunday School; 7 p.m. evening song and sermon. Everyone welcome to come and join in national thanksgiving to God for all his goodness.

UNITED CHURCH NOTES

Sunday, Oct. 8, the quarterly sacramental service will be held at the morning worship. Every communicant is most cordially invited to participate in this sacred memorial. The minister will have a short communion meditation. Sunday school will assemble at 12:15. In the evening the Thanksgiving service will be held. The church will be suitably decorated and the singing will be in keeping with the occasion. The minister will preach a Thanksgiving sermon. Let us come with hearts filled with gratitude to thank God for all His benefits to us. You are earnestly invited to avail yourself of these helpful services. Strangers and visitors will be welcomed.

MISCELLANEOUS

Mr. and Mrs. Walter S. Purvis returned last week from a trip by car to Moose Jaw, Regina and Winnipeg. Mr. Purvis calling on the dealers in those places who represent the International Coal & Coke Co. Ltd.

O. Bomben and Caroline Deluca were married on Saturday in St. Paul's United Church by Rev. R. Taylor, and in the evening a party was held at the home of the bride.

Hilda Fairhurst spent the week-end with her parents, Mr. and Mrs. J. Fairhurst. She was accompanied by Mr. Fairhurst to Lethbridge by Mrs. Fairhurst, who spent a few weeks at the Fairhurst home.

Mr. George R. Neil received word on Sunday of the death of his mother Mrs. Lucy Neil at Waterloo, Quebec, in her 87th year. Death occurred on Sept. 30, and the funeral was held at Waterloo.

Tom Bremmen and Bert Stephenson, former Coleman pupils, have taken up studies in Calgary technical institute.

Entries for Musical Festival Show Big Increase

Orchestras From Kimberley and Cranbrook Will be Features October 26-27-28

With over 200 entries compared with approximately 102 in 1932, and a probable total of 450 people competing, Mr. J. M. Upton of the festival committee is very optimistic of the success of this year's event. Billington accommodation in the Pass town will be taxed to provide for the visitors, and the committees are making special efforts to see that plans carry as smoothly as possible.

Michel hand it is reported will compete and it is probable that Coleman hand will enter the competition. Tickets on sale for \$1.50 include admission to nine performances, and for \$1.00 three admissions will be allowed for evening performances. Tickets may be obtained from Mrs. Fred Antrobus, G. Pattinson, or other committee members in Coleman. The public are urged to purchase season tickets, thereby helping the festival committee in its big undertaking.

J. ATKINSON PRESIDENT MINERS' ASSOCIATION

Results of polling as follows:

International Mine:
J. Clark 79
J. Atkinson 67
D. Holly 53
B. Garrett 30
McGillivray Mine:
J. Atkinson 164
J. Clark 37
B. Garrett 27
D. Holly 26
Totals—Atkinson 243, Clark 116, Holly 29, Garrett 57. Spoiled ballots 29. Total voted 512.

He Won The Pool

Playing golf at Blairmore, it is reported a party including W. L. Rippon, R. P. Parnes, W. Goldard and G. Pattinson consisted of the "ante" which was captured by George Kellock in a friendly round.

Mr. and Mrs. J. Emmerson left by car this morning for Vancouver.

Mr. H. A. LeRoy, manager of Tilted Wood Ltd., Michel, was a visitor in Coleman and Blairmore on Wednesday.

Prepare Your Car For WINTER DRIVING

Have you tried our New Service? **FREE SERVICE**—on Spark Plugs, Batteries, Radios, Tires.

It won't be long until the heavy snows are flying, roads will be skiddy and extra care will have to be taken of your engine.

Anti-Freeze
the well-known "Prestone" anti-freeze, guaranteed, at greatly reduced price.

Skid Chains
The only safe way to drive on frozen roads is with skid chains on all four wheels. See our stock.

Batteries
All the better batteries, from, up **\$7.95**

Radios

Corporation Plan Evolved For Assistance Of U. S. Unemployed

En Route With President Roosevelt To Chicago.—Creation of a government non-profit corporation to buy and distribute the necessities of life to the unemployed this winter was announced Sunday night by President Roosevelt as he hurried westward to Chicago where he will address the American Legion Convention.

The gigantic relief corporation was organized with the dual purpose of providing food, clothing and fuel for the destitute and at the same time relieving glutted markets of their price-depressing surpluses.

It is a broad attack by the president to bring about a re-adjustment of the economic dilemma of want and need with a surplus of food and staples.

Harry L. Hopkins, federal relief administrator, was named by Mr. Roosevelt as chairman of the new corporation. He will work with Secretary of Agriculture Wallace and George Peek, the agriculture adjustment administrator, in directing the huge program.

Hopkins has \$330,000,000 of the federal relief appropriation left with which to carry out the plan.

Mr. Roosevelt announced the relief corporation as he sped westward on a suddenly decided trip to Chicago to address the American Legion Convention at its opening session and visit the Century of Progress.

Stephen T. Early, a secretary, made the announcement which stated that "while farmers' buying power has increased to an encouraging degree, agricultural prices still remain substantially below the level needed to hasten the country on the road to economic recovery."

The announcement also stated "the president is convinced that in many states relief allowances now made by state and municipal authorities are far from adequate and must be substantially increased as rapidly as possible."

Increase In Antelope

Reported To Be Worried To Ranchers In Southern Alberta

Lethbridge, Alberta.—Ranchers in southeastern Alberta, cattle range country are worried over the marked increase in the number of antelope ranging in the district between the Coultas branch of the Canadian Pacific Railway and the Cypress Hills.

As many as 200 of the graceful little animals are reported on single ranches. It is only a few years since the Dominion Government established an antelope park at Nemesis, fearing the antelope, like the buffalo, were in danger of being wiped out entirely.

Manitoba Session In January

Winnipeg, Man.—The next session of the Manitoba legislature will be held toward the end of January, it was learned following a caucus of government members here.

Russia Demands Right To Export Double Its Amount Of Wheat Quota

London, Eng.—Another meeting between what representatives of the "big four" exporting nations and the Russian delegate at Canada House held in an effort to solve the problem arising from the Soviet Government's demand for the right to export about double the amount allotted to it, broke up with an official statement that "no definite conclusions have been reached."

The Russian, Abraham Gurevitch, told the press that his government had not changed its position. "Why should we?" he asked.

The official statement said that "further negotiations will be carried on between the governments."

The Soviet delegate, who left the meeting before its conclusion, said that the representatives of the big powers might meet again early in November.

Under the international wheat agreement drawn up at the world economic conference Russia would be permitted to export 44,000,000 bushels.

Russia turned down a conditional offer from Canada and the United States to increase the Soviet Union's allotment for the coming year by 22 per cent.

W. N. U. 2014

To Discuss War Debts

Delegation From Britain Sails For United States

Southampton, Eng.—Three British officials including Sir Frederick Leith-Ross, government economic adviser, have sailed for the United States, ready to discuss war debts with President Roosevelt.

Sir Frederick, while saying his plans were indefinite, declared he was visiting America "to observe the feeling toward the question of the war debts."

"And I expect," he added, "I shall be presented with an opportunity of discussing the position with President Roosevelt. Although for the moment he is very busily engaged with internal problems."

The other members of the party were Sir Ronald Lindsay, British ambassador to the United States, and T. K. Bewley, treasury official who has been attached to the Washington embassy.

Age Limit For Architects

Any Over 55 Years Are Too Old To Compete

London, Eng.—The government has decided architects more than 55 years old are too old to compete in designing the great \$10,000,000 office block to be built in Whitehall, centre of the United Kingdom administration.

The rules of such world-famous architects as Sir Edwin Lutyens, Raymond Unwin, Herbert Baker, Reginald Blomfield and Banister Fletcher.

The reason given for the age limit is that building of the new block will occupy several years, and, according to the government, experience shows that elderly architects engaged on a big undertaking often die before the work is completed.

Given Power To Call Strike

No Immediate Action Anticipated From Council Of Railway Unions

Montreal, Que.—Officials of the railway running trades have notified the Canadian Pacific and Canadian National Railways their 30,000 members have granted the general council of the five unions power to call a strike against the second 10 per cent basic wage cut made by the railways.

George Hodge, director of personnel for the Canadian Pacific Railway who is acting for both railway companies in negotiations with the running trades confirmed the statement. He said no immediate action was anticipated.

Canadian-Produced Radium

Toronto, Ont.—The second shipment of Canadian-produced radium, consisting of 25 needles, each two milligrams, was delivered to the Ontario government for use in provincial hospitals.

Better Programs For West

Canadian Radio Commission Announces Completion Of Plans

Ottawa, Ont.—The following is a statement issued by the Canadian radio commission:

"The Canadian radio commission announced that it had completed arrangements whereby high class sponsored programs now being broadcast only in Ontario and Quebec, would become available to western Canada and the maritime provinces. High cost of transmission, the announcement said, had hitherto prevented the more distant parts of the country from receiving these programs, but through the arrangements which the commission had made with the wire companies the cost of transmission will be reduced to about half what it now is."

"The commission said it had been advised that sponsored programs are to be extensively advertised in the newspapers throughout Canada. In addition to bringing more Canadian radio entertainment to the maritimes and the west, the arrangement would give new business to the commercial broadcasting stations in those areas."

"It was explained by Chairman Hector Charlesworth that the commission's action had been taken at the request of numerous commercial firms proposing to sponsor programs this season."

African Chief Reinstated

His Majesty The King Orders To Request Sent By Chief's Mother

London, Eng.—Chief Tshakeldi of the Basangwa tribe of Bechuanaland has been released by his majesty from the sentence of banishment from the tribal territory, imposed by acting High Commissioner Admiral E. R. G. Evans two weeks ago.

The sentence, imposed on Tshakeldi because a native court under his direction tried a white man on various charges and gave him a flogging, aroused intense interest in South Africa and the native protestants. Tshakeldi pleaded that he had been living like a native and was subject to their laws. Following the sentence Tshakeldi's mother made an impassioned appeal to the king himself for the reinstatement of the chief.

The dominions' office officially announced that Tshakeldi would be reinstated by the king's decision.

(Phineas MacIntosh, a white man, was flogged by natives after he had appeared before a native court.)

Tshakeldi has expressed regret for what occurred and assured the high commissioner of South Africa he would work in harmony and loyal co-operation with the administration.

U.S. Naval Program

Britain Is Informed That United States Cannot Postpone Work

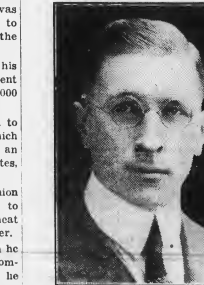

Washington.—The United States has informed the British government it cannot postpone any part of the naval building programme now underway as was suggested in London.

The British government was reported as feeling that carrying out the whole \$238,000,000 naval construction programme might have a bad effect on moves to limit armaments. The source through which the American position was made known in reply was not disclosed at the state department.

Vast Area To Cover

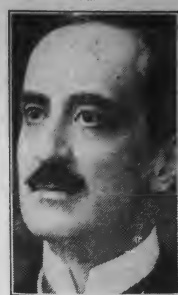

St. John's, Nfld.—One lone Royal Canadian Mounted Police post will remain north of Baffinland, Inspector Sandys Wunsch of the eastern Arctic subdivision announced on his arrival here aboard the S.S. Nascope. The inspector said stations at Dundas Harbor and Bache peninsula have been closed and the detachment north of Baffinland would be left to police the vast barren area.

PROMINENT MEDICAL LEADERS ATTEND CONFERENCES

Dr. F. G. Banting (left), Canadian Professor of Medical Research at the University of Toronto, who leaves Canada shortly to attend the Cancer Congress to be held in Madrid, Dr. J. G. Fitzgerald (right), Dean of the Faculty of Medicine, University of Toronto, who leaves Toronto on October 15 to attend the meetings of the International Health Board in Geneva.

HEADS GOOD ROADS

Hon. J. E. Perrault, Minister of Highways and Mines for Quebec, who was elected President of the Canadian Good Roads Association at the annual meeting of the Association at Hamilton, Ontario.

Praises H.B. Route

Col. James Arrives In France After Trip Described As Safe Way To Europe

Winnipeg, Man.—Enthusiastic supporters of the Hudson Bay route for carrying of western Canada's products to the markets of Europe is expressed by Col. F. J. James, of Regina, vice-president for Saskatchewan of the On-to-the-Bay Association, who has arrived at Montpelier, France, aboard the grain carrier S.S. Pennyworth.

In a communication by General R. W. Paterson, president of the On-to-the-Bay Association, Col. James said: "Had a wonderful trip, especially through the Bay and Hudson Straits—the safe way to Europe. Wheat in splendid shape."

Nineteen days out of Churchill, with a cargo of prairie wheat, the "Pennyworth" reached the French port Sept. 14, and later went to Genoa, Italy, where the grain was unloaded. The ship now is returning to Newcastle, England, her home port.

Prefer Marriage

Test In Britain Would Show That Cleverest Women Are Married

London, Eng.—The brainiest women prefer marriage is the only logical conclusion to be drawn from this announcement that of 12 women entering the examination for the highest class in the civil service, not one was successful.

This examination is the stiffest in the civil service, but it is no harder than the Oxford final schools' or the Cambridge tripos examinations, where women prove proportionately as successful as men.

But here's the stickler. Candidates for the civil service examination must be either unmarried or widows, and they are required to resign any appointment on marriage. Apparently these stipulations balked the women cleverest at examinations.

Returns With Full Cargo

S.S. Brandon Making Second Trip From Churchill To England

Churchill, Man.—After riding out a storm, which forced her back to sea, when she was within 35 miles of Churchill, the S.S. Brandon docked on her second journey of the season to this northern port. She steamed in to the government pier at 6:30 p.m. on Sept. 29.

The "Brandon" returned to the United Kingdom with a cargo of 360,000 bushels of wheat; 200 head of cattle, the first shipment of livestock from Churchill, a shipment of lumber, and a carload of Manitoba honey for overseas buyers.

Heavy Crop Next Year Might Cause Difficulties With Wheat Quota

B.C. Election Campaign

Premier Lougheed Makes Appeal To Set Aside Party Politics

Victoria, B.C.—Premier S. F. Lougheed, of British Columbia, launched his government's election campaign at Saanichton in an address in which he reiterated his appeal "to men and women of character and ability who will set aside party politics" to unite to solve the problem of the day.

A union government so constituted, in his opinion, would "oppose the dole system and propose that services shall be rendered for relief granted;" and in conjunction with labor and industry conduct a survey to find and develop every means of creating employment. Rotation of work and shorter hours of labor would be among the questions considered.

He would ask federal co-operation to obtain legislation for orderly marketing of primary products; such co-operation was necessary because provincial laws in British Columbia to that end had been declared ultra vires. He would urge the Dominion to appoint a royal commission to inquire into the subject of "better terms" for British Columbia than those under which the province entered Confederation. They had not been as favorable as those given other provinces.

Canadians Appointed

Will Act On Five Main Committees Of League Assembly

Geneva, Switzerland.—Canadians were appointed to five of the main committees as the League of Nations assembly meeting, just opened, completed organization work.

Dr. W. A. Riddell, permanent Canadian representative at Geneva, was appointed a member of the technical committee and vice-president of the social committee. Hon. Philippe Roy, Canadian minister to Paris, is a member of the budgetary and agenda committees. Hon. Dr. R. J. Manion, Minister of Railways and Canals and head of the Canadian delegation to the assembly, was appointed to the legal and political committee.

Spirit Of Optimism

Eastern Canada And United States Experience Business Improvement

Vancouver, B.C.—A new spirit of optimism is prevalent in the east, according to B. Thomson, Vancouver harbor commissioner, returning from the 22nd annual convention of the American Association of Port Authorities held at Chicago and Toronto.

"In eastern Canada and the United States one meets optimism on all sides, and it is not the passive optimism of the past," he said, "but an active moving spirit carrying all lines of industry forward in its sweep."

Supplies For North

Edmonton, Alberta.—Col. H. G. Reid, superintendent, Hudson's Bay company transport department, Winnipeg, is in the city following a voyage to Akavik to supervise emergency despatch of duplicate consignment of supplies to the company's posts in the western Arctic.

Plea For Abolition Of Private Manufacture Of Armaments

Geneva, Switzerland.—Abolition of the private manufacture of munitions and armaments was urged before the League of Nations assembly by Hon. R. J. Manion, Canadian Minister of Railways and Canals, and leader of the Canadian delegation.

Dr. Manion said never in history had there been so many agreements and pacts designed to guarantee the security of nations. Yet it was obviously safe to say that at no time since the armistice had there been more uncertainty.

"It is our opinion," Mr. Manion declared, "that every effort should be made to disassociate armament-making and private profit. As article eight of the league covenant points out, 'the manufacture by private enterprise of munitions and implements of war is open to grave objections.' With that we wholly agree."

"We therefore hope that in the near future an agreement may be

Calgary, Alta.—If Canada produced a bumper 1934 wheat crop and the surplus could not be absorbed under the London international wheat agreement, then the surplus would have to be kept off the market, even if Dominion and provincial legislation was necessary, according to Hon. M. A. MacPherson, K.C., Saskatchewan Attorney-General.

Mr. MacPherson, who attended the London wheat conference when the agreement was reached by 22 nations, explained the powers of the international advisory committee, set up by the agreement in an address to Calgary Board of Trade.

Production of the 1934 bumper crop by Canada, he intimated, might result in the committee finding the wheat could not be absorbed, orders it be kept off the market. Canada's export quota, he pointed out, was 200,000,000 bushels under the agreement and export of more than that figure would depend on the ruling of the advisory committee.

There were only two courses open to the wheat growing nations that met at the London conference; either to reach an international agreement, or to fight it out to a finish with danger threatening all, the attorney general said. "The only possible arrangement that could be reached was the quota system to which the nations have now agreed."

From the behaviour of the importing nations of Europe since the agreement was signed, we have every indication they are living up to the letter of it, he added.

In a review of the present world wheat situation, Mr. MacPherson emphasized Canada's surplus this year was nearly 219,000,000 bushels compared to its normal surplus of 40,000,000 bushels. United States' normal surplus was 125,000,000 bushels, but this year it was 386,000,000 bushels compared to the average carryover from 1922 to 1928 of 325,000,000 bushels.

Organized Canadian Nurses' Association

"Mother Of Nursing In Canada" Dies In Toronto Hospital

Toronto, Ont.—"The Mother of Nursing in Canada," Mary Agnes Selvey, first woman superintendent of the Toronto General Hospital and of the Nurses' Training school there, died in the private pavilion of the hospital which she loved.

She left home from New York in 1882 and entered the Bellevue Hospital Training school, pioneer school on this continent, organized in 1873. She organized the Canadian National Association of Trained Nurses, now known as the Canadian Nurses' Association.

Buffalo To Be Killed

Ottawa, Ont.—Slaughter of 2,000 buffalo in Wainwright National Park, Alberta, has been sanctioned by the government. The animals are being requested for the purchase of the hides during November and December. The animals to be killed are 500 bulls, two years of age; 150 bulls, three years old; 200 cows, three years old; and 1,150 aged bulls and cows.

Plea For Abolition Of Private Manufacture Of Armaments

reached to do away with this evil either by nationalization or by the complete control of this industry."

"The pact of Paris expressed the Canadian attitude towards war completely—that it should be outlawed as a method of settling international controversies and disputes, and be replaced under all circumstances by pacific methods. Until that pact is accepted in principle and adopted in practice throughout the world, civilization will be in danger of complete destruction."

Sir John Simon, British delegate said a prompt disarmament agreement was a vital necessity for world political and economic recovery.

"A disarmament convention has been on concession and co-operation is the greatest need of the world," he declared, adding he detected certain signs of a beginning in economic recovery, but such a recovery could not make strides without political amelioration.

NOTES AND COMMENTS

ASK anyone what they would pick a chicken for, and invariably the answer is a smile. If you are very hungry, undoubtedly you would pick it to save yourself from starving. But if you had to work nine or ten hours a day picking chickens at two cents each, wouldn't you feel like saying something.

IN the Swift Co.'s plant at Stratford, Ont., trouble has arisen because of workers striking for three cents for picking chickens. It looks as if some employers are exploiting the workers and instead of trying to help them, their purchasing power is being reduced to such a scale that they are just slaves.

"THE longer you have been out of work, and the more down and out you appear, the harder it is to get a job, and even if you are lucky you are offered less than a starvation wage." This is the experience of men who have honed their skills to get work; men who would rather work for a starvation wage than apply for relief.

THE masses of the workers furnish the bulk of the purchasing power in any country. By reducing wages to the basis whereby the workers have no money to buy anything except bread and butter, how can better times prevail? There needs to be drastic action taken by the Dominion government to see that such instances as girls being paid two cents a chicken for picking and exploitation of workers in many other lines is immediately stopped. True enough, one half of the world doesn't know how the other half lives, and doesn't care, either! It is man's inhumanity to man which makes countless thousands mourn.

WHILE President Roosevelt proceeds with speeding up the National Recovery Act, Canada waits and watches; apparently, like Mr. Micawber, hoping that something will turn up. In the meantime things are just drifting with no definite policy attempted to deal with conditions in a big way. Hoping that the tide will turn is futile. That great transportation system, the C.P.R., is facing a strike of its employees because of a second proposed ten per cent cut in wages. These reductions by big companies are bound to be followed by hundreds of smaller concerns, with further distress added to present trying experiences. A man needs not to be an economist or financial expert to perceive that the present road leads to ruin and anarchy, and that patience, with many who are suffering, will cease to be a virtue. Optimism is a splendid trait, and courage will lift many out of the slough of despondency, but a man who would walk around trying to instill optimism into others while conditions are as they might be taken for a harmless imbecile.

LIFE insurance companies record thousands of policies have lapsed because of inability of policy holders to pay. The average person who carries life insurance is thrifty, and does so in order that his wife and children will not be reduced to beggary if he should die. He is now faced with the stark reality that he cannot even meet his premium payments, adding additional anxiety to that of buying the daily bread.

ONE of the most practical suggestions recently heard of was that of the rancher, George Ross, that the Government should buy a few thousand beef carcasses and distribute meat to needy people. This would be far better than schemes we know of whereby public money is absolutely wasted as far as improvements are concerned. 'Tis easy to give advice, and lots of it is given, but one does not need to look very far to find cause for complaint. To bring about an improvement is every man's duty and personal responsibility cannot be shirked.

IF a dollar is added to taxes, there is a terrifying howl; if they are reduced, not a sound is heard. This was exemplified when school tax notices went out this year. A ten per cent. cut was made, but it passed by without even a ripple on the surface, except that a few did think their taxes were a little lighter this year. To encourage the payment of current taxes, an extension of time in which to take advantage of a five per cent. discount is announced in this issue. Money saved is, in a sense, as good as money earned, even if it is five cents on the dollar or five dollars on the hundred, or fifty dollars on the thousand. But this latter sum will not worry many local ratepayers. Every good citizen will pay his taxes for schools and local improvements, even though it takes some scraping and saving.

THE local committee of three trustees who are in charge of the opera house took on this responsibility in the interests of the entire community. A "white elephant" for many years, public sentiment urged that steps be taken to utilize the building for community gatherings, concerts and meetings. It is now up to the public to support this committee. Considerable money has been spent to provide an adequate meeting place, and as long as overhead expenses are met, no additional revenue is looked for. Being placed at the disposal of the entire community, it deserves support.

The Road to RECOVERY

A Statement by the Prime Minister of Canada

WITHIN a few days the Dominion of Canada will offer for public subscription the 1933 Refunding Loan, the purposes and terms of which will be announced in detail by the Minister of Finance on Tuesday, October 10. In this national undertaking an opportunity will be afforded both for sound investment and for public service, and I have no doubts as to the readiness with which Canadian investors will respond.

I feel, however, that the 1933 Loan marks a point in Canadian affairs to which it is only proper that public attention should be drawn as a means of extending justifiable encouragement to many thousands of men and women who have endured adversity with such admirable fortitude.

With due precaution against unwarranted optimism I think I may say that in Canada we are now on the road to recovery. The road may be long and progress may be slow, but the events of the past six months appear to demonstrate with increasing clarity that the downward trend has come to a definite stop and that an upward trend is now in progress.

The evidence of improvement is written in the statistical facts of our industry and trade. These records show that our general economic condition reached its lowest point during the month of February last and that today we are definitely above that level following a recovery which has been gradual but persistent and unmistakable.

The most significant of these figures are probably those dealing with the physical volume of business, wholesale prices and employment, and I give here briefly the record of recovery in each case as shown by the reports of the Dominion Bureau of Statistics.

The index of our physical volume of business, which represents virtually the economic pulse of the nation, stood last February at 67.1. For August, the most recent month for which the index is available, the figure was 89.9, an improvement of approximately 34%.

Wholesale prices, in which even minor changes are highly significant, have risen over 9%, or from an index of 63.6 last February to one of 69.4 in August.

Employment, although still at a regrettably low level, has, nevertheless, been gaining steadily for the past five months. On the basis of partial reports from industrial employers some 116,000 persons have been added to pay-rolls since last April. An estimate by the Bureau on a more comprehensive basis places the total increase in employment at 246,000 during the same period.

Our external trade figures are equally encouraging. Both exports and imports have risen, with the former showing the more rapid increase. As a result, Canada had a favourable trade balance of over \$114,000,000 in the twelve months ended August 31st this year. For the corresponding period last year the favourable balance was only \$38,000,000, and in the two previous twelve months' periods instead of favourable figures we had unfavourable balances of \$15,000,000 and of \$103,000,000 respectively.

All these facts and figures I think we may quite safely take as sign-posts on the road to recovery. In our further progress, no single factor will have more significance than the success of our national loan operations. The recent 4% loan in London was a notable tribute to Canada's credit standing. It was immediately oversubscribed many times and now commands a substantial premium. I feel satisfied that our own people will be quick to perceive that the 1933 Refunding Loan in Canada is at once a challenge and an opportunity—a challenge to aid in the restoration of business recovery and an opportunity to serve thereby their own and their country's best interests.

NEWS FROM CORBIN

Corbin mines resumed work after an idle period of two months excepting for a rotation of men for maintenance work. Under the present system the work will be rotated to each man giving them an average of two days a week, which applies to both mine four and mine six. In consideration of the slack work the Corbin Colliery company made an allowance in the rent, light, water and coal charges for the month, halving the cost if the

housekeeper received less than five shifts a month, with no charges against those who did not obtain any work for the two periods—Cranbrook Courier.

Scientific Evidence Indicates Better Moisture Conditions For Western Wheat Growing Areas

Scientific evidence indicating that western Canada is at present in a period of rising weather values as far as crop-growing conditions are concerned has been assembled and is published in the 1933 Canada Year Book.

The evidence, though "by no means certain," suggests the probability that the scientists' curve representing crop conditions is mounting.

This is the cautious conclusion reached by A. J. Connor, Dominion Climatologist, in an article in the Year Book on the results of weather research on the prairies.

The research work, pointing the way to accurate forecasting of crop-growing conditions in the west, includes preparation and compilation of weather statistics covering the years from the early 1850's to the present.

The rise and fall of favorable crop weather in western Canada was subjected to statistical analysis. In this way the folklore of climate that the west is or less common knowledge on the prairies, in such matters as weather cycles, has been subjected to the impartial scrutiny of science in an attempt to uncover its underlying principles.

The basic principle of the findings is that the western weather cycle is irregular, says the Regina Leader-Post. Exact forecasting of conditions for a specified year is not possible with present data. But the rising and waning of moisture and heat, vital factors in the growing of crops has been reduced to a set of statistics and charts, and related to the sun-spot intervals, long recognized by scientists as having an important influence on life on this planet, mankind and man's occupations.

Here is the story, as told by Mr. Connor in the Canada Year Book: "The scarcity of rainfall in western Canada in recent years has been the reason for frequent requests that the Meteorological Service should supply the figures of annual rainfall and rainfall for a long period of years. Some of our correspondents have suggested that there was some law of periodicity governing the precipitation of western Canada.

"It has also been urged by our correspondents that the success of western crops was totally dependent upon the weather of the current year, but also upon the weather of the immediate preceding years. Although several suggestions of this nature have been propounded, they may be briefly summarized by saying that two dry years in succession have a more detrimental effect upon the crop of the second year than a single contemporary dry season and that a good third year does not compensate for two previous dry years."

Figures from representative stations in western Canada, available over long periods, were submitted to statistical treatment. These stations were Edmonton, Calgary, Medicine Hat, Swift Current, Battleford, Prince Albert, Qu'Appelle, Minnedosa, and Winnipeg.

"Reference to the table shows that the individual annual values are subject to very large fluctuations of much shorter intervals than the sun-spot period. These latter fluctuations are of such violence that they have a very large immediate effect upon the crops of the corresponding year.

"Turning now to the group of three stations in Saskatchewan we find minima in 1890, 1905, 1914, 1919 and 1931. These give intervals of 5, 10, 9, 5 and 12 years. It must be admitted, however, that major maxima are more difficult to recognize than in Alberta. From 1886 to 1919 is approximately twice the sun-spot period and that from 1919 to 1931 is very close to the sun-spot interval. Looking at the maxima we find them in 1892, 1901, 1916, 1921 and 1927. All three tracings do not come to a major maximum in the same year, so that the actual intervals between peaks are somewhat doubtful. On the whole the case for solar influence in Saskatchewan is rather weak.

"The last group of three stations of Qu'Appelle in southern Saskatchewan and two stations in Manitoba. At these three stations the smooth curves on the whole do not show such large fluctuations. The maxima are in about 1851, 1901, 1923, with somewhat doubtful peaks about 1912 and 1927. It is possible to pick the peaks so as to get intervals approximating those of the sun-spot interval, but the result is not very satisfactory. There are maxima about 1889, 1900, 1910, 1920 and 1930, so that if we neglect the fairly well marked minima about 1864 and 1923 we have a rather better case for solar influence."

"Four sun-spot maxima have occurred during the time for which we have data. The data, thus analyzed, indicates that the weather in the Canadian west from the farmers' standpoint may be expected to reach a peak of beneficence about sun-spot maximum, to fall steeply in the two succeeding years; then rise to a secondary peak one year before the sun-spot maximum; fall steeply at maximum sun-spots and the following year; thereafter to rise slowly to a peak at the next sun-spot minimum."

Finally, Mr. Connor comes to the conclusion that accurate prediction of yield for any particular year is out of the question. "The relation of sun-spots numbers," he concludes, "to wheat weather and to wheat yields is of no value for predicting the yield of any particular year, but does appear to indicate an irregular cyclical march of these variables (heat and moisture) through the years. Since we have given the annual values of both precipitation and numerical temperature, there are sufficient data for those who wish to consider this matter further."

Man Without A Country

Originally From Italy, Served In British Army During The War

A man with a triple nationality and a career which has puzzled the heads of state departments in three countries sailed for America from Liverpool the other day in the "Laconia." He is Pasquale Graziano, a thick-set man of 47, and his case has aroused national interest.

He is a native of Naples, but lived in England for 28 years, and married a South Shields girl, with whom he went to America. After being there for seven years he was deported to Italy because he did not produce a passport.

On his return to his native country he was refused work because he had preferred to serve in the British army during the war.

Rejected by his own country, he went to South Shields to his wife's relatives and for some months has been waiting for three countries to settle his life in regard to residence. Now he has been ordered to leave his Italy under threat of deportation. He is going to America, but can only enter under non-quota arrangements.

"I fought for your flag for four years," he stated on his departure, "but I am not allowed to stay under the protection of your flag. I wish I was willing to lay down my life. I was willing to lay down my life."

Graziano's case has been energetically fought by the British Legion. "I am grateful for all they have done," he said before leaving, "and to the home secretary for his leniency."

Described As Piano-Thumper

Name Given Paderewski By Shop-Keeper Near His Estate

A few years ago, an American traveler bought some grapes that he later liked in a shop in the little town of Morges, near Yverdon, Lausanne. This year he was passing through Morges again, found the same shop and the same woman running it. He asked for the same grapes, but she didn't have any, although she remembered the title of the grapes that old piano-thumper (Paderewski) had bought there. "I got them from that old piano-thumper," she said, leaving the shop, our friend saw that "behind here" was quite a nice estate, stretching up the hill from the ship on the quay. He asked a passerby who lived there, Monsieur Paderewski said the man—The New Yorker.

From Primitive To Modern

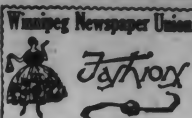

All Forms Of Transportation Used By Homeleader Near Kincaid

Forms of transportation ranging all the way from that used by prehistoric man down to the most modern of today have been used by Edward Rodbard to reach his home in the Kincaid district.

In 1908 "Teddy" walked to his home. Later on he purchased a team of oxen which he traded for a team of horses. Still later he purchased an automobile and in a recent week a barnstorming aeroplane was in Kincaid and Teddy hired it to fly out to the homestead.

"For whom are you going to vote?" "For the same man as my husband." "Good. Whom is your husband voting for?" "The man I tell him to."

Pyamas, cosmetics, radio parts and sausage skins are among the outputs of new factories in London, England.

Nothing To Hide

A young girl who was vacationing in the country and became friendly with a farmer boy. One evening as they were strolling across a pasture they saw a cow and calf rubbing noses in the accepted bovine fashion. "Ah, said the farmer boy, 'that sight makes me want to do the same.' "Well, go ahead," said the girl, "it's your cow."

NEW AMERICAN EMBASSY BUILDING IN PARIS

Our picture shows the new building for the American Embassy in the Place de la Concorde, Paris, which has just been opened. It has been designed in harmony with its dignified surroundings.

Origin Of Ugly Fashion

"Plus Four" Adopted From Uniform Of British Guardsmen

It may be that some people do not know the true origin of the "plus four." Young gentlemen who swagger about in these garments, and even wear them to the office of the theatre, will like to know they are adopting a Guard's gadget. When the British Army at home adopted puttees from its Indian comrades-in-arms the Brigade of Guards had naturally to be just slightly different. So they wound the puttees from ankle to just below the knee in the ordinary way, but then allowed a four-inch pleat of khaki trouser to turn down over the top. This style became de rigueur in the Guards, and military tailors, when measuring a Guardsman for his trousers, always added the memorandum, when noting the length, "plus four," meaning four extra inches allowed for the pleat. Guardsmen even talked of their trousers as "plus four," and there you have the whole history of modern man's ugliest fashion—London correspondent, Ottawa Journal.

Plans Experiment In Tropics

French Engineer Studying Production Of Cheap Ice

A project to make tropical sea produce cheap ice is under study by the French Academy of Sciences. Its author is Georges Claude, engineer noted for his attempts to utilize differences in water temperatures between the ocean's surface and depths to produce electrical energy for industrial purposes.

By means of an immense pipe sunk into the Caribbean Sea, off Cuba, he sought several years ago to harness the force caused by the contact of warm and cold currents on the theory that it could be transmitted to a shore factory for distribution. The pipe buckled under pressure and further experiments were halted by the economic crisis.

M. Claude now proposes to fit up a 10,000-ton ship, the "Tunisie," as a sea-going ice plant, utilizing the same principles. The ship, which is at Dunkerque, will be ready to begin experiments within 10 months.

Must Get License

United States Tourists With Radio Sets In Car Must Comply With Law

United States tourists travelling through Canada in automobiles equipped with radio receiving sets must secure radio licenses the same as Canadian citizens. This was reiterated by officials at Ottawa when their attention was brought to press items wherein visitors from the United States expressed surprise at this condition.

"The law provides that all receiving sets must be licensed; and that goes for automobiles equipped with them whether they belong to Canadians or tourists visiting Canada," was the observation of government officials.

"Darling, I could not afford that antique jewelry for you, but I bought you a car." "That is sweet of you, but it is not the same thing." "Well, it is old anyway."

More than 17,000 French people have visited London, England, on one-day excursions this year.

Columbia has just placed a tax of 20 per cent. on all drafts drawn in favor of residents abroad.

Problem Of Keen Competition With Low Wage Countries By Reason Of Cheap Production

Improved Radio Code

Included Medical Section For Merchant Shipping And Air Services

The new international code of signals for shipping, coming into force on January 1, 1934, strikes an unexpectedly human note. Sick and injured seamen will be able to get treatment prescribed by radio.

Volume 2 of the new code provides for the first time an official international wireless telegraph code issued specially for the use of the merchant shipping and air services. This embodies a medical section with a complete case-stating system for cases of illness or injury and a list of standard quarantine messages.

The new code involves numerous alterations of various kinds. A complete change is made in the method of allocating visual signal letters to ships. All ships fitted with wireless will in future have the same sign call for visual and radio signalling. Ships not fitted with radio will use signal letters taken from the Radio Sign Call series.

The result of the changes generally will be greater simplicity in signalling at sea. Already signallers have been practicing with the new code for some time. When the change-over comes, the men responsible for sending and receiving messages will be thoroughly familiar with the new system and there will be no confusion.

Iowa Farmer Made Thresher

Constructed Efficient Machine Entirely From Odds And Ends

Working in his spare time over a period of two years, William Sperling, farmer near Clinton, Iowa, has constructed an efficient threshing machine entirely from odds and ends.

This device, with which he recently threshed three acres of oats, is propelled by a 2 1/2 horse-power engine. It includes parts of corn grinders, hakes, an old Crowe engine, a Ford, a Waterloo engine and a buggy, but no parts of a regular threshing machine.

An improvement on Sperling's home-made threshing machine is that the laborer is not connected with the chaff. Whereas an ordinary blower blows chaff and waste oats out to the straw pile, Sperling's blows it into a separate pile.

For a reason, he said, his three acres yielded 75 bushels of oats. With an ordinary thresher, it would not have been more than 70, he said. It operates too slowly, however, for large oat or wheat crops, he added.

Tastes Better In French

Menu In English Has No Appeal For Some People

A London hotel has provided its clients with a translation into English of the French dishes on its menu. It is curious that modern English should have so few of a vocabulary in gastronomy, unless it is that the pleasures of the table are no longer highly considered, for in the past there were plenty of fine sounding phrases for English food. Nowadays people like to eat in French. Perhaps there is a spice of adventure in ordering a dish without an idea of its composition. At any rate the French menu is likely to stay with us. Indeed it is spreading to cheaper restaurants which once of their customers' food in English. For it is found that those who are accustomed to eating in French and who can no longer afford it find their dignity restored by a French menu as much as their purses are relieved by a less ostentatious restaurant—London Saturday Review.

Taking Part In Play

Lord Duncannon Cast As Romeo In Presentation At Ottawa

Lord Duncannon, son of the Governor-General, will be cast in the part of Romeo in Shakespeare's Romeo and Juliet, presented by the Ottawa Drama League during the Christmas vacation. The supporting cast will be drawn from the principal little theatres of Ottawa.

Rupert Harvey, one of the foremost Shakespearean producers in the United Kingdom, will be guest producer. He visited Canada last season as adjudicator of the Dominion drama festival competition.

Had Right Idea

McMillan asked the old Eskimo, his friend, in the igloo in the white silence of the Arctic night, why he thought we were here on earth. The Eskimo said, "I have given much thought to that. I believe it is that we may help one another."

Canada, the United States and Britain are particularly affected by one of the greatest problems the world has yet had to face says Herbert Bailey in a special United News Cable. It is the problem of competition between countries accustomed to a high standard of living and countries which by reason of cheap production costs and low wages can outbid them, not only in the markets of the world but in home markets as well.

Canada, as Prime Minister Bennett has revealed, has already discovered what Russian timber competition means in the British market because of Russian state production. European countries are now building tariffs against neighbors who have a lower standard of living.

Meanwhile, Britain's greatest anxiety is Japanese competition. The Japanese frankly admit that owing to low production costs, part of which they claim is due to the modernity of their machinery but mostly to cheaper living among the workers, they can now defeat Britain in the markets of the world on competitive production. In this connection, Japan has already done several blows in Lancashire cotton products in Indian markets, owing to the cheapness of their goods and also to their willingness to supply what customers want. They are now attacking the British silk industry and are even invading Britain with cheap silk goods at prices with which no British firm can compete.

Austria and South Africa are likewise complaining of unfair Japanese competition and are taking remedial measures which, however, are not likely to prove effective. British merchants accuse Japanese traders with issuing propaganda designed to disrupt the empire.

A responsible South African newspaper has published a facsimile of a trade circular distributed by a Japanese firm throughout India in which the firm says: "It is one of our sublime missions to emancipate 300,000,000 Indian people who groan under British tyranny and in the cause of justice lend our hands on behalf of their independence."

This comes on the eve of negotiations between Japanese, British and Indian business men at Simla to discuss schemes for the division of markets. Japanese commercial authorities declare they know nothing of such circulars. Nevertheless, the report is given credence in London.

Ben Titit, one of the foremost leaders of British trade, writing in the Daily Herald, says: "The Labor Party must attach more importance to world factors than it does. Chinese, Indian and Japanese industrial conditions are convulsing the world with revolutionary changes in industry and social life. The East may rise to be a monster and the magnet of wealth and production."

It is this aspect of the fight between the high standard of living in the West against the low standard of living in the East which is now engaging attention as one of the world's gravest problems.

Valuable Library Addition

Royal Ontario Museum Is Richer By Handsome Donation

The Royal Ontario Museum at Toronto announced recently the generosity of four men, one in Toronto, two in China and one in England, had enabled it to acquire the noted "Wu Library" of 2,500 works and about 40,000 volumes. Acquisition of the books, the museum said, will give it the third largest Chinese library in North America.

Four donors of the library are: Sigmund Samuel, of Toronto; Bishop White, of Hoonan, and Dr. Ferguson, noted Chinese scholar, and Sir Robert Mond of England.

Some Kitchen Hints

When making cherry cake first roll the glace cherries in the weighed flour to prevent them sinking. Avoid beating eggs to a froth when making a baked custard, or the mixture will not set well. Yorkshire pudding is lighter if a little water is added to the batter: as part of the milk measurement. Home-made sodas will not rise well if the dough is mixed too dry.

Receive Radio Certificates Announcement has been made by the radio branch of the Department of Manoeuvres of a list of successful Saskatchewan candidates who had obtained amateur certificates of proficiency in radio. They are: A. Capper and F. Ward, Moose Jaw; T. A. Gjerres and A. K. Hook, Regina; J. A. May and D. S. McGee, Saskatoon.

WORLD HAPPENINGS BRIEFLY TOLD

Export of Canadian cattle to the United Kingdom during the year 1933 will total 45,000 head compared with 27,334 head exported last year.

Alberta government received through the gallantry tax on beer \$440,184 from Alberta Hotel Association in 1933, according to Charles Trautwein, president.

Advantages of University of Alberta farm radio programs will be extended to farm communities throughout central and southern Alberta this winter.

The Dominion Bureau of Statistics estimates that 246,000 Canadian have been reinstated in employment since April 1. In the month of August, 12,000 left the army of the unemployed for gainful occupation.

One of the world's largest diamonds, a stone of 540 grams or more than 2,000 carats, was reported recently to have been found in a diamond field in Minas Geraes province. Its value was placed at \$780,000.

The post office department of the British Government has a surplus of about \$53,960,000—the largest in its history. A White Paper has been published giving this figure and other financial details for the year 1932-33.

Successful tests with a new type of electrical rail car, running on ball bearings instead of wheels and capable of making 190 miles an hour, have been announced at Moscow. The train runs in a single shallow trough instead of tracks.

Business is 15 per cent. better in Western Canada, J. B. Lauson, Winnipeg cattle exporter and former member of the Manitoba legislature, declared on his arrival at Montreal to arrange export of western cattle to Great Britain.

William Roy Greenalade, 16-year-old youth of Rose Lynn, about 140 miles northwest of Calgary, has been nominated by the Canadian government for training in the Royal Air Force school at Hinton, Buckinghamshire, England.

After seven years spent at the heart of the empire, Hugh M. Baker, late Alberta representative in London, England, has returned to Edmonton, having been recalled on the closing of the Alberta office overseas. He will continue with the inside service of the government in Edmonton.

Commemorates Laying Of First Submarine Cable

Tablet Marking Historic Event Unveiled At Charlottetown

A stormy day nearly 81 years ago when oxen and horses dragged ashore the Prince Edward Island end of the first submarine cable in America, was described at Charlottetown as Chief Justice J. A. Matheson unveiled a tablet commemorating the historic event.

The cable was laid by Frederick Newton Glozier on Nov. 22, 1852, from Cape Tormentine, New Brunswick, to Charlottetown, Prince Edward Island, a distance of nine miles. The steamer carrying the line across the straits Northumberland Strait could not get within a mile of the Charlottetown shore and the feat was accomplished with great difficulty looking toward a keel anchor and the united strength of eight animals.

Donated by the Historic Sites and Monuments Board of Canada, the tablet was placed on the outside of the provincial building, within which the first conference looking toward the confederation of Canadian provinces was held in 1864. Here the achievement of Glozier was acclaimed by a distinguished gathering presided over by Professor D. C. Harvey, of Halifax, a native of Prince Edward Island, archivist of Nova Scotia and a member of the board.

A Fair Exchange
Brown leaned over the garden fence. "I say, old fellow," he said to his neighbor. "I understand that you have Thompson's new rake."

The neighbor nodded. "Good," said Brown. "If you'll let me borrow that occasionally, I'll let you use Jones' roller whenever you need it."

Having many unique features, a clock built by Daniel Quare, inventor of the repeating watch, was sold recently in London, England, for \$1,100.

Doctor: "My treatment is doing you good. You are looking much better today."

Patient: "Oh, I always look much better in this hat."

A writer says that "a really good saxophone player is one who can play the instrument with one hand." He'll need the other for self-defense, no doubt.

IT TAKES A WOMAN TO KNOW HOW FLATTERING AND CHIC A SIMPLE DRESS CAN BE

With all the cachet of an expensive model is this adorable dress, yet it's quite within your means.

For the master dress, coin spots—bright red on light navy blue—were used for the sleeves and the neck bow. The dress itself was light navy blue crinkly crepe silk.

The clever cut of the bodice and the way it crosses is simplicity itself. The skirt is slimming too with its graceful panels.

Style No. 750 is designed in sizes 16, 18, 20 years, 36, 38, 40, 42, 44 and 46 inches bust.

Carried out in one material is equally lovely as in grey, beige or in a crepe silk print.

Size 36 requires 3 1/4 yards of 38-inch material with 1 1/4 yards of 38-inch contrasting and 1/2 yard of 38-inch lining.

Price of pattern 20 cents in stamps or coin (coin is preferred). Wrap coin carefully.

Saskatchewan Relief

Voluntary Relief Committee Organized For Present Season

The Saskatchewan Voluntary Relief Committee is again in operation in a very active way and expect to receive large contributions of fruits, vegetables, grain checks, clothing, etc., for distribution to the less fortunate citizens in the dried out areas.

The personnel of the Committee, which is non-denominational and non-political, is the same as last year and consists of the following: W. W. Chisholm, chairman; Mrs. H. R. Horne; Mrs. J. R. Beveridge; Mrs. W. J. Cameron; Mrs. M. J. Matthews; Monseigneur Janssen; Rev. H. Adcock; Rev. Dr. Dorey; Rev. J. B. Fritz; Mr. T. R. Moffett; Mr. W. F. Marshall; Mr. Arthur Wood.

The results obtained by this Committee last year were very satisfactory. Citizens throughout the areas where crops were plentiful contributed liberally for the benefit of the less fortunate in districts where crops were a failure. It is to enable those who can to contribute in a similar way that the work of this committee will be continued and extended this year.

The Committee have already written to the heads of the Churches, Service Clubs, Fraternal Organizations and other public bodies and to spirited citizens in most of the 20 towns in the districts where contributions may be expected requesting that they make immediate request for contributions.

The first week in October was set aside as "Contribution Week." As this week immediately preceded Thanksgiving Day, it was hoped that the response to the appeal for voluntary contributions would be so great that October 8th would result in a real Thanksgiving for all the residents of our Province.

Last year, in addition to large contributions of vegetables, grain checks, clothing, cash, etc., from our own province, the Committee was fortunate in securing many carloads of fruit from British Columbia and Ontario and would request that anyone throughout the province having friends or kindred organizations in either of the two provinces named from whom contributions might be expected, kindly contact the names to our Committee so that they may be communicated with immediately.

The cash contributions received last year were used for the purpose of buying wool and flannel, etc., for the relief areas and distributed by the Committee among the needy residents.

The transportation companies are to be commended on the very important part they are taking in their endeavour to relieve distress among the citizens in the relief areas who have again granted free freight privileges, that is free transportation on all canned, dried and fresh fruits and vegetables in carload lots and also including in less than carload lots anywhere in the Dominion to the relief areas. The railway companies, however, cannot handle any shipments excepting through the Relief Commission, nor can they grant stop-over privileges. That is all cars must be loaded or unloaded at one point.

Investigation Of Penal System Asked By Church Body

"A thorough investigation and study by an independent and representative commission, of all our penal and reformatory institutions," was asked by the Council for Social Service of the Church of England in Canada.

The resolution, moved by Right Rev. J. A. Richardson, Bishop of Fredericton, causes a probe of all such institutions "whether Dominion, provincial or local, and of the entire system of dealing with delinquents and criminals."

Recipes For This Week

(By Betty Barclay)

BRIAN BISCUITS

- 1/2 cup bran.
- 1/2 cup milk.
- 1 1/2 cups flour.
- 4 teaspoons baking powder.
- 1 teaspoon salt.
- 1/4 cup shortening.

Soak bran in milk. Sift flour with baking powder and salt. Cut in shortening with knife or dough blender until the mixture is like coarse meal. Add bran and milk, stirring carefully with a fork until dough disappears. Turn on to top board. Knead lightly and roll or pat into sheet 1/4 inch thick. Cut with floured cutter. Bake in hot oven (425 degrees Fahrenheit) about 12 minutes. Provides 10 biscuits (2 1/2 inch).

COCOROONS

- 1 cup sugar.
- 2 cups corn flakes.
- 1/4 teaspoon salt.
- 2 egg whites, stiffly beaten.
- 1 can shredded coconut, moist.
- 1/4 teaspoon almond extract.

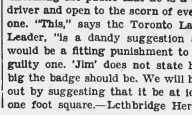

Fold sugar and salt gradually into egg whites. Fold corn flakes and coconut gradually into mixture. Add almond extract. Drop from teaspoon on greased baking sheet. Bake in moderate oven (350 degrees Fahrenheit) 10 to 12 minutes. Makes 3 dozen cocoroons.

Sounds Like Good Idea

Punishment For Careless Drivers Suggested By Sault Editor

Jim Curran, editor of the Sault Daily Star, proposes a new brand of "red"—not "Red." His suggestion is to compel every motorist who is convicted of careless driving to display a red card for 30 days on his car, thus informing the public that he is a bad driver and open to the scorn of everyone. "This," says the Toronto Leader, "is a dandy suggestion and would be a fitting punishment to the guilty one. 'Jim' does not state how big the badge should be. We will help out by suggesting that it be at least one foot square.—Lethbridge Herald.

SUNDAY SCHOOL LESSON

OCTOBER 8

SAUL IN DAMASCUS

Golden Text: "Wherefore if any man is in Christ, he is a new creature; the old things are passed away; behold all things are become new."—2 Corinthians 5:17.

Lesson: Acts 9:1-31.

Devotional Reading: 2 Corinthians 5:14-21.

Explanations and Comments

Saul's Purpose in Going To Damascus. Saul's purpose in going to Damascus was to persecute the Christians. He was a high priest and a member of the Sanhedrin. He was a zealous Pharisee and a persecutor of the Christians. He was a man of high position and high influence. He was a man of high character and high reputation. He was a man of high ability and high energy. He was a man of high courage and high determination. He was a man of high faith and high hope. He was a man of high love and high mercy. He was a man of high wisdom and high understanding. He was a man of high power and high authority. He was a man of high glory and high honor. He was a man of high praise and high fame. He was a man of high respect and high esteem. He was a man of high admiration and high admiration. He was a man of high reverence and high awe. He was a man of high honor and high respect. He was a man of high glory and high honor. He was a man of high praise and high fame. He was a man of high respect and high esteem. He was a man of high admiration and high admiration. He was a man of high reverence and high awe. He was a man of high honor and high respect. He was a man of high glory and high honor. He was a man of high praise and high fame. He was a man of high respect and high esteem. He was a man of high admiration and high admiration. He was a man of high reverence and high awe. He was a man of high honor and high respect. He was a man of high glory and high honor. He was a man of high praise and high fame. He was a man of high respect and high esteem. He was a man of high admiration and high admiration. He was a man of high reverence and high awe. He was a man of high honor and high respect. He was a man of high glory and high honor. He was a man of high praise and high fame. He was a man of high respect and high esteem. He was a man of high admiration and high admiration. He was a man of high reverence and high awe. He was a man of high honor and high respect. He was a man of high glory and high honor. He was a man of high praise and high fame. He was a man of high respect and high esteem. He was a man of high admiration and high admiration. He was a man of high reverence and high awe. He was a man of high honor and high respect. He was a man of high glory and high honor. He was a man of high praise and high fame. He was a man of high respect and high esteem. He was a man of high admiration and high admiration. He was a man of high reverence and high awe. He was a man of high honor and high respect. He was a man of high glory and high honor. He was a man of high praise and high fame. He was a man of high respect and high esteem. He was a man of high admiration and high admiration. He was a man of high reverence and high awe. He was a man of high honor and high respect. He was a man of high glory and high honor. He was a man of high praise and high fame. He was a man of high respect and high esteem. He was a man of high admiration and high admiration. He was a man of high reverence and high awe. He was a man of high honor and high respect. He was a man of high glory and high honor. He was a man of high praise and high fame. He was a man of high respect and high esteem. He was a man of high admiration and high admiration. He was a man of high reverence and high awe. He was a man of high honor and high respect. He was a man of high glory and high honor. He was a man of high praise and high fame. He was a man of high respect and high esteem. He was a man of high admiration and high admiration. He was a man of high reverence and high awe. He was a man of high honor and high respect. He was a man of high glory and high honor. He was a man of high praise and high fame. He was a man of high respect and high esteem. He was a man of high admiration and high admiration. He was a man of high reverence and high awe. He was a man of high honor and high respect. He was a man of high glory and high honor. He was a man of high praise and high fame. He was a man of high respect and high esteem. He was a man of high admiration and high admiration. He was a man of high reverence and high awe. He was a man of high honor and high respect. He was a man of high glory and high honor. He was a man of high praise and high fame. He was a man of high respect and high esteem. He was a man of high admiration and high admiration. He was a man of high reverence and high awe. He was a man of high honor and high respect. He was a man of high glory and high honor. He was a man of high praise and high fame. He was a man of high respect and high esteem. He was a man of high admiration and high admiration. He was a man of high reverence and high awe. He was a man of high honor and high respect. He was a man of high glory and high honor. He was a man of high praise and high fame. He was a man of high respect and high esteem. He was a man of high admiration and high admiration. He was a man of high reverence and high awe. He was a man of high honor and high respect. He was a man of high glory and high honor. He was a man of high praise and high fame. He was a man of high respect and high esteem. He was a man of high admiration and high admiration. He was a man of high reverence and high awe. He was a man of high honor and high respect. He was a man of high glory and high honor. He was a man of high praise and high fame. He was a man of high respect and high esteem. He was a man of high admiration and high admiration. He was a man of high reverence and high awe. He was a man of high honor and high respect. He was a man of high glory and high honor. He was a man of high praise and high fame. He was a man of high respect and high esteem. He was a man of high admiration and high admiration. He was a man of high reverence and high awe. He was a man of high honor and high respect. He was a man of high glory and high honor. He was a man of high praise and high fame. He was a man of high respect and high esteem. He was a man of high admiration and high admiration. He was a man of high reverence and high awe. He was a man of high honor and high respect. He was a man of high glory and high honor. He was a man of high praise and high fame. He was a man of high respect and high esteem. He was a man of high admiration and high admiration. He was a man of high reverence and high awe. He was a man of high honor and high respect. He was a man of high glory and high honor. He was a man of high praise and high fame. He was a man of high respect and high esteem. He was a man of high admiration and high admiration. He was a man of high reverence and high awe. He was a man of high honor and high respect. He was a man of high glory and high honor. He was a man of high praise and high fame. He was a man of high respect and high esteem. He was a man of high admiration and high admiration. He was a man of high reverence and high awe. He was a man of high honor and high respect. He was a man of high glory and high honor. He was a man of high praise and high fame. He was a man of high respect and high esteem. He was a man of high admiration and high admiration. He was a man of high reverence and high awe. He was a man of high honor and high respect. He was a man of high glory and high honor. He was a man of high praise and high fame. He was a man of high respect and high esteem. He was a man of high admiration and high admiration. He was a man of high reverence and high awe. He was a man of high honor and high respect. He was a man of high glory and high honor. He was a man of high praise and high fame. He was a man of high respect and high esteem. He was a man of high admiration and high admiration. He was a man of high reverence and high awe. He was a man of high honor and high respect. He was a man of high glory and high honor. He was a man of high praise and high fame. He was a man of high respect and high esteem. He was a man of high admiration and high admiration. He was a man of high reverence and high awe. He was a man of high honor and high respect. He was a man of high glory and high honor. He was a man of high praise and high fame. He was a man of high respect and high esteem. He was a man of high admiration and high admiration. He was a man of high reverence and high awe. He was a man of high honor and high respect. He was a man of high glory and high honor. He was a man of high praise and high fame. OCCASIONAL WIFE

By
EDNA ROBB WEBSTER
Author of "Joretta," "Lipstick
Girl" Etc.

SYNOPSIS

Camilla Hoyt, young and beautiful, falls in love with Peter Anson, fellow student in an art school. She is the adopted daughter of a wealthy family, and he is a poor, struggling sculptor. On their first date Peter spends most of his money to show Camilla a good time, and then decides he must give her up because he cannot stand the financial pace. A chance meeting, however, paves the way for another date. This time they walk in the park. Camilla tells Peter that she is not rich; or, at least, will not inherit the Hoyt fortune. Peter in turn confesses he is practically penniless. They fall into each other's arms. Together, in the park, Peter and Camilla try to arrive at some plan for the future. Mrs. Hoyt, Camilla's foster mother, suspects from Camilla's actions that a romance is brewing. She is anxious to see Camilla wed wealth. Mrs. Hoyt immediately begins to question the girl about the interest Peter is showing her. She manages to be present on one occasion when Peter calls for Camilla, but the latter's clever stage management thwarts her plan.

Now Go On With The Story

CHAPTER XI

The art school reception was a gay soiree—a gesture of youth to capture and hold the last drop of freedom and irresponsibility before it took up the grave problems of life and maturity. Balloons decorated with clever and facetious sketches floated above the dancers. Some of them were tied to the girl's arms and some had escaped to rest gleefully against the ceiling. Costumed entertainers mingled with the guests and added hilarity to the intermissions.

It was the first time Camilla and Peter had danced together since the first and last extravaganza which had almost ruined Peter. He never had recovered from it and was financially anxious, but he would not admit to Camilla how serious his situation was. Tonight, he resolutely dismissed his anxieties and abandoned himself to the delight of holding her in his arms, his face resting against her fragrant hair that was like the twilight dusk hovering above a cloud of lace-rose. He left her regretfully to meet the obligations of courtesy dances.

Always he seemed to be a social diplomat for the sake of his career, Camilla understood that—bless her! She seemed to understand everything, he thought fondly. Capable little thing, who worked problems out for herself. Life had mocked her, handed her a cruel rebuff, and said, "Now, what will you do about that?" With a flash of her black eyes and a flare of determination, she accepted the challenge. Now, he had complicated her problem, and she had accepted that in the same spirit. Brave little thing!

Sometimes, he half decided that he would make things easier for her by dropping out of her life. Some fellow with money would be glad to take care of her. But that was the trouble, she wouldn't let anyone do that—not when she loved someone else. And that other person whom she loved was Peter—himself. So he accepted the miraculous fact, and hoped for the best.

Of course, Camilla never lacked for partners while he danced with other girls. He was glad of that, and resented it, too. It seemed to him that too many fellows stood in the stag line, waiting to cut in and force him

to relinquish her loveliness into their arms. Taking the girl who loved to a dance was like everything else—you got what you wanted and at the same time had to take something else you didn't like so well, and make the best of it.

Just now, his philanthropy was devoted to Avis Werth, whose object in attending National was what Peter had suspected first of Camilla. She had time on her hands and money in her purse, and nothing to do but look for an eligible man. No doubt almost anyone would have qualified, but just now her hopes favored Peter. He was the kind of man women lose their heads over, anyway, and their hearts. He was the kind for which women contrived special traps and offered generous concessions of principle for bait, on the chance of luring him into their possession.

Contrary to most men's vain beliefs, few of them select the women they want for wives, anyway. A woman finds her man and goes about it to get him. She stops at nothing. Whether she is sophisticated or naive or ill-bred, it makes no difference. Only her methods differ—subtle or clumsy or bold—she gets her man.

Being sophisticated, Avis was subtle. She gave her body to the sensuous rhythm of the music. Vexation turned him cold. His eyes wandered about the crowded room, seeking for Camilla. His lack of interest piqued Avis. She knew for whom his eyes were searching. But she also knew the vulnerable spot of Peter's interest. It whistled, "I intend to be responsible for a few reactions in your favor."

He shrugged indifferently. "Nice of you to be concerned about me, but I don't want you to attempt anything like that. If I win, I should want it to be on my merits alone. Besides, I'm

SAVED IMPORTED DRESS

"After a little wearing, a lovely green voile—an imported dress—lost color so completely that it was not wearable. A friend who had admired it asked me why I wasn't wearing it any more. On hearing the reason she advised dyeing it and recommended Diamond Dyes. To make a long story short, it turned out beautifully. I have a lovely new dress that really cost just 15c—the price of one package of Diamond Dyes."

"I have since used Diamond Dyes for both tinting and dyeing. They do either equally well. I am not an expert dyer but I never have a failure with Diamond Dyes. They seem to be made so they always go on smoothly and evenly. They never stop streak or run; and friends never know the things I dye with Diamond Dyes are redyed at all!"

Mrs. R.F., Quebec.

the mental reactions of the judgment committee, any more than the other entrants can. I'll just have to take my chances along with the rest," he smiled ruefully.

His smile tantalized her, without intention on his part. It was the kind of smile that unconsciously conveys a personal confidence. It betrayed him, unwittingly, to this woman who adored him and coveted his attention. Her lips answered his smile and almost touched his, for he was taller than Camilla, to whom he had to incline his head to meet her face. Avis whispered, "I intend to be responsible for a few reactions in your favor."

He shrugged indifferently. "Nice of you to be concerned about me, but I don't want you to attempt anything like that. If I win, I should want it to be on my merits alone. Besides, I'm

"If You Win, It Will Have To Be On Your Merits"

Having everything else in the world's sole ambition was a high bid. Preferably a handsome one, and if his ambitions promised fame and a fortune of his own eventually, there could be no objection to that. She knew Peter's ambitions. If feminine appeal were not half enough, she could add flavor that was more alluring, perhaps.

"You are planning to enter the National exhibit, aren't you, Peter?" she turned her face close to his, intimately, and her intonation implied that she shared his most personal affairs.

"Yes, of course," his reply brought his attention back from the search for Camilla.

"Did you know that my uncle has been appointed to the scholarship committee?" she asked triumphantly. "No," he replied tonelessly. "Which one is your uncle? I have the new literature from the foundation."

"Mr. Danforth. His influence could do a lot for you, Peter," confidentially.

He became more aloof, suddenly. His action was not perceptible to others, but Avis was sensitively aware of it and made some resolutions of her own. He said sharply, "I don't care about influences. All I ask is fair judgment in any contest I enter."

"Of course," she agreed suavely. "But are you, Peter, that pre-judges always? Indulgent judgment of art. No two critics see a picture or a play or a book or a piece of sculpture with the same measure of appreciation. The measure is gauged by mental reactions, and you can't escape that fact."

"Mental reactions are all right, but mental prejudices have nothing to do with fair judgment."

"That depends," she observed aloud, and added in her thoughts, "who influences those mental prejudices. I'll have you eating from my hand yet, Peter Anson, if you want that Paris scholarship."

"Well, I can't be responsible for all

sure that even you could not influence a member of the National Scholarship committee," he added with an effort to be gracious at the same time that he intimidated the subject was closed.

"Oh, don't worry about that. If you win it will have to be on your own merits," she warned him with a suggestion of malice.

The dance ended and he surrendered her to a new partner, gratefully. With eager joy, he searched for Camilla. She seemed to have disappeared. After an anxious inspection of the room, he stepped outside for a cigarette. Perhaps she had gone to the dressing room. He had seen her last, dancing with Gus.

Of course, those two had met during the month since Peter and Camilla had pledged their love to each other.

Peter finished his cigarette and went inside again. Vainly, his eyes sought the vision in pink lace that would be Camilla. She was not dancing, he finally concluded. And wondered. He began to watch for Gus. Perhaps he would know where Camilla had gone after dancing with him. But he was nowhere on the floor, either. Peter grew anxious.

He stepped outside again and strolled down the campus walk, slowly. The night was softly caressing. He thought, it would be heavenly walking home with Camilla across the park. Always, it was like paradise to be with Camilla. He must find her. Perhaps she was out here somewhere resting in the coolness. He wished he might find her if she were, and have her for a few minutes alone.

(To Be Continued.)

"Send me a ton of coal, please," phoned the housekeeper.

"What size?" asked the dealer.

"Well, I'd like a 2,000-pound one!"

A tax on all telephones has just been imposed by the Colombian government.

Canada Still Holds Record

Largest Cheese Ever Made Shipped To Chicago Forty Years Ago

One of the exhibits at the New York State Fair at Syracuse is to be a "mammoth cheese" weighing 12,000 pounds that is expected to open the eyes of the natives.

But, the correspondent of the Montreal Gazette points out, this cheese, large though it is, will be a mere pygmy in comparison with one that Canada sent to the World's Fair in Chicago 40 years ago and that cheese, it is worth remarking, was a product of the eastern part of Ontario, still famous for its dairy production.

"This reminds me," writes G. A. Marson, of Montreal, to the Gazette, "of the mammoth cheese from Canada which formed part of the Canadian exhibit and which I saw at the World's Columbian Exhibition at Chicago in 1893. This enormous mass of cheese was manufactured at the Dominion Experimental Dairy Station, at Perth, Ont., under the supervision of Prof. James W. Ross, who was then acting as Dominion Dairy Commissioner. As much as 207,200 pounds of milk were used in making it, that quantity being equal to the milk of 10,000 cows for six feet in height. A special truck was made for transporting it through Great Britain after it left Chicago. It was later sold to T. J. Lipton, of London, England, who exhibited it as a feature of his business in every large city of Great Britain and Ireland."

Syracuse Fair may have its 12,000-lb. cheese, but Canada made and displayed one of 22,000 lbs. 40 years ago. And that record does not seem to have been exceeded since that time.—Brookville Recorder and Times.

THE RHYMING OPTIMIST

By Aline Michaelis

WHEN YOU ARE HAPPY

I know when you are happy,
You do so many things,
You fit about the little house
As though your feet had wings.

With sewing, cleaning, baking,
It seems you never quit;
And even when all else is done,
You take bright yarns and knit.

I know when you are happy,
Though others might not see
The half-smile, the glowing eyes,
These signs are clear to me.

But, ah! when you are quiet
And when your hands are still,
Across my heart from some dark land
A wind blows, bleak and chill!

God made me wise and strong, dear,
To fend your fears away;
For I would have you happy
Forever and a day!

Saskatchewan Honey

Twenty Tons Hauled Over H.B. Route For British Market

In addition to shipments of grain and lumber, 20 tons of Saskatchewan honey will be shipped on the S.S. Brandon to Birkenhead, England, by way of the Hudson Bay, it was announced by Hon. J. A. Merkle.

The shipment is being arranged through the Saskatchewan Beekeepers' Association in conjunction with the bee division of the Saskatchewan Department of Agriculture, and will be made from Yorkton.

The government hopes to build up a market for Saskatchewan honey in the markets of the United Kingdom, and this shipment which is due to leave shortly will mark the opening trail in this connection.

Answers—"I think it's a disgusting state of affairs when one reads of consular earnings more than cabinet ministers."

"Oh, I don't know! On the whole, they're funnier!"

Nothing makes a man feel more important than his ability to answer the questions of a small boy.

SIMPLY WORN OUT?

Take Lydia E. Pinkham's Vegetable Compound

Can anything be more wearing for women than the constant round of household duties? You have no time to rest, you are tired, you are old, you are not strong. There comes a time when you feel worn out, and you find yourself simply worn out. Lydia E. Pinkham's Vegetable Compound will help you. Its tonic action will give you strength, and will make your daily tasks seem easier to you. 98 out of every 100 women who report to us say that they are benefited by this medicine. Buy a bottle from your druggist today . . . and watch the results.

From Napoleon's Tomb

Little Helps For This Week

"The exceeding greatness of His power to usward who believe according to the workings of His mighty power."—Ephesians 1:19.

The lives which seem so poor, so low, The hearts which are so cramped and dull, The baffled hopes, the impulses slow, The tears, the sighs, and all, and all, It blossoms to the beautiful.

—Susan Coolidge.

A root set in the finest soil in the best climate, and blessed with all that the sun and air and rain can do for it, is not in so sure a way of its growth to perfection as every man may be whose spirit aspires after all that which God is ready and infinitely desirous of giving him. For the sun meets not the springing bud with the certainty as God, the source of all good, communicates Himself to the soul who longs to partake of Him.

Wm. Law.

If we stand in the openings of the present moment, with all the strength and breadth of our faculties unselfishly adjusted to what it reveals, we are in the best condition to receive what God is always ready to communicate.

—T. C. Upham.

New Process Reclaims Wool

Old Cloth Made New With No Cotton Fiber

Waste clothes and rags can be turned into textile fibres for a second use by a carbonization process that reclaims all the wool, says Popular Mechanics Magazine. Vegetable matter, such as cotton and linen, is destroyed by hydrochloric-acid fumes, but wool is undamaged. When a wool suit is held in the fumes a short time the cotton compounds are reduced to brittle carbon compounds and the suit falls in pieces.

Old clothes that have been dried carefully are placed in a huge airtight cylinder, to which the fumes are admitted. In four hours the smart suit is reduced to a pile of woolen cloth without a trace of cotton or linen fiber. After cooling the rags are given a vigorous shaking in a machine called a duster. A grinding machine completes the operation by ripping each bit of cloth into fibres to use for new cloth.

Seemed Unnecessary

A keen sportsman turned up, by error, half an hour too early for a meet. He jumped off his mount and tossed the reins towards one of the village farmers. "Hold my horse for a few minutes, boy," the boy looked in scared fashion at the big horse and said:

"Will 'e bite, sir?"

"No, no, not at all."

"Will 'e kick, sir?"

"Of course, no."

"Will 'e run away, then?"

"No, no, of course, he won't."

"Then," asked the lad in a burst of curiosity, "why do you want 'im 'old?"

Small Tables Cut 25% and More!

\$1.50 to \$10

Quite often a small, single well-designed table will "make" a room, filling up that bare spot, beside being a utility furnishing unsurpassed. Our selection of small tables for all uses was never more pretentious. There are matching woods and neutral woods and each and every one has been reduced not less than 25 per cent. for this month. Some much more.

Up-To-Date Furniture

EARL BOWEN Main Street COLEMAN

LOCAL AND GENERAL

Born: To Mr. and Mrs. H. Vincent, Sept. 25, a son.
Buck Eyesacker motored to Edmonton on Sunday to spend a few days holiday.

Mrs. Brennen of Fernie arrived on Sunday to visit her son, Mr. John Brennen, and Mrs. Brennen.

A report this week stated that all employees at Corbin had been given thirty days notice.

Mrs. Robert Donaldson of Lethbridge is at present visiting with her mother, Mrs. A. Dewar.

Gwen Brown went to Edmonton last week to resume her studies at Alberta University.

Dr. and Mrs. Borden left on Tuesday to spend a holiday at Vancouver, travelling by motor.

Mrs. S. Howarth spent a couple of weeks visiting Mr. and Mrs. Brocklehurst at Calgary.

Mrs. W. E. Walker of Taber is spending a week at the Rectory, the guest of Rev. and Mrs. A. S. Parlington.

Mr. Lichinsky, radio expert for the Canadian General Electric Corporation, spent a few days on repair work of radios at Sentinel Motors this week.

Miss Janet Gillespie returned last week from Nelson general hospital, where she was graduated on completion of her three years course.

Marie Olson returned to Midnapore after spending several weeks at the home of Mr. and Mrs. J. T. Griffiths, Sixth street.

St. Alban's vestry is planning a series of the parish drives to raise money to pay the balance of cost of repairing the whist hall.

John Howarth improved the shining hour during his holidays by taking a special course at Hollinsworth's business college in Calgary.

The prize-winners at the Catholic Ladies' Aid whist drive on Sept. 21 were Mrs. P. Grogan, Mrs. Derbyshire, Mrs. J. McDonald and Rev. Fr. Dunbar. On Sept. 28 the winners were Mrs. J. Nash, Mrs. A. Lombury, Mr. H. Harris and A. N. Other.

Charlie Graham was down on a short visit from Lacombe. Charlie's visit is a reminder of how quickly time passes, for it is now over five years since the family moved to Lacombe, after living in Coleman for many years.

Over a hundred attended the meeting of Coleman Miners' Association on Sunday, when no-natives were made for the office of president. The candidates named were Johnathon Atkinson, John Clark, Bert Garret and David Holly.

The U.F.A. government supporters complain of a whispering campaign being carried on against their leaders. Judging from what has appeared in the daily newspapers, it is a very emphatic "talking out loud" campaign, causing considerable misgiving in the public mind.

The danger of boys putting out snare for small animals such as rabbits was demonstrated when a small dog was caught in one near town. The owner of the dog happened to notice it struggling in the brush, and investigation showed it had run its head through a wire snare. Had it remained unnoticed, the dog would have struggled till strangled. Traps of any kind inflict long drawn-out torture. Far more merciful and humane to kill outright with a bullet, if killing of animals is to be done.

All did not go so well on the visit of the Morrison Boys and George Stuart to Coleman, to participate in box-n matches. Two victories and one defeat marked the appearance of the boys, instead of a clean sweep of victories as on the occasion of their last trip down there. George Stuart won his match as did Angus Morrison but Murdo was not as fortunate. After fighting a very even fight up until the eighth round, Murdo suffered a nose injury that handicapped him considerably and he was forced to take the wrong end of the decision, although he gamely stayed with the fight to the end. —Kimberly Courier

HUMOROUS NOTES FROM THE FERNIE FREE PRESS

Jasper: "They say whiskey shortens a man's life."
Casper: "Yes, but he sees twice as much in the same length of time."

The young man had asked the big business man for his daughter's hand. Big Business Man: "You work, I believe, for Blank and Co. What are your prospects of promotion?"

Young Man (smiling): "The very best in the whole office, sir. My job is the lowest one we've got."

The sailor entered the store and accosted the new fair and dainty young clerk.

He: "Can you let me have 'A Kiss in the Clerk' for 25 cents?"

Girl Clerk: "I couldn't think of it."

He: "But you don't understand, it's a record."

Girl Clerk: "I'll say it is, at 25 cents."

Born: To Mr. and Mrs. V. Lote, of Hillcrest, Sept. 29, a daughter.

The Polish society will hold a dance in their hall on Saturday, Oct. 7.

Save 5 per cent. by paying your school taxes by October 20.

Clarence Reddick, formerly of Blair, more, and later of Kimberley and Trail, visited old friends here during the week.

Mrs. William Jackson and two children left on Tuesday for a six months visit at her former home in Lancashire, Eng.

Mr. and Mrs. J. A. McDonald, Mr. and Mrs. McAuley and Mrs. T. B. Smith were visitors in Calgary.

Charlie Roughhead won the pool at the Grand Union hotel on Tuesday, on the world's series baseball games. The amount was \$64.00. Angelo Gentile won on Wednesday, amount being about \$53.00.

Frank Barrington went out to hunt ducks last week. In 100 miles he shot one duck. He made a better average on his return right in his own backyard for a skunk was shot there after it had made its presence known beneath the woodpile.
